### Independent research shows using 10ticks could lead to **two jumps** in examination grade:

An independent researcher conducted a survey comparing 10ticks to leading educational research by Professor John Hattie and Geoff Petty.

- 10ticks is one of the only systems to incorporate printable worksheets, leading to quicker increases in results for kinaesthetic learners.
- the 10ticks system uses badges recommended by Hattie and Petty, in the form of merits and certificates.
- the 10ticks system allows teachers to show worksheet answers so students can self mark. This has a huge impact on attainment increase.
- the 10ticks system gives immediate feedback highlighting wrongly answered questions each day, allowing students to rectify mistakes.
- the 10ticks system finds key areas for improvement for each child.

A vital component to quick leaps in learning.

### About the School Learning System:

*"I think the 10ticks School Learning System is an excellent website. The pupils really enjoy the games and need little encouragement to go on them. The upload facility for classes is also very good and saves a lot of time."* KM

*"The admin system is very comprehensive, levels, performance, tracking, communicating, making stuff available to parents. Truly comprehensive, loads to choose from. Rich desktop around the core material. We are already big fans."* JB

*"It is truly an invaluable resource and we are very happy with it."* AS

*"Thanks for setting up this fantastic resource. Makes maths fun."* FS

*"You are the perfect example of how things should be done. Thank you again. Keep up the good work with your outstanding resource."* JD

*"Many many thanks. It looks good, I teach children with autism from the ages of 4 to 11 in one group, 10ticks looks fabulous."* SR

*"The students have logged on and are loving it."* PW

*"My son Ram has been using 10ticks. He has recently received his Maths GCSE result. He got an A\* and he is only 10 years old. 10ticks has helped him achieve this."* RM

10ticks is a trade mark of Fisher Educational Ltd.

## Delivering the 2014 Mathematics National Curriculum

### The 10ticks School Learning System

The 10ticks Learning System has been shown to increase exam results by as much as 2 grades in just 12 months. The System gives simple 20 minute homeworks which can be set up in minutes. Revision courses are marked online, meaning no more marking, and are used to back up key topics, taught in the classroom, at home. Our Full Courses include our famous printable worksheets delivering the perfect blended (online and offline) learning experience.

### Interactive Student Desk Area

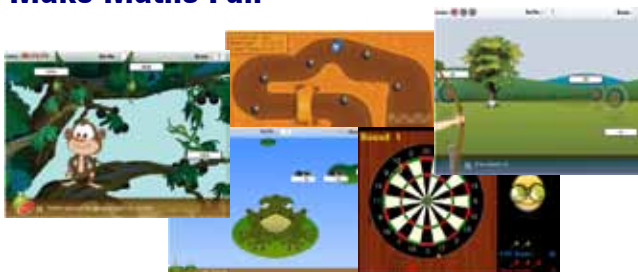

There are 3 student desk looks to choose from. Each look encourages creativity and keeps students engaged. Students love the desk area and it is from this area that they complete all their work.

### Every Online Resource You Will Ever Need

Thousands of guides, worksheets, tests and games makes 10ticks the most comprehensive maths system today. You can set quick 10 minute homeworks to contain a guide, a game and a test, or longer ones to include the worksheets.

### Make Maths Fun

Students love maths games and we have hundreds. These are perfect for keeping students engaged during long courses. All the games are filled with questions from the students' specific year and current topic, so they learn whilst having fun.

### Track Results. Improve Teaching on Feedback

As a teacher you can easily track student scores. Results are taken from the tests completed at the end of each topic area. These are split up into whole class and individual results. You will also be sent an email at the end of each day. These highlight

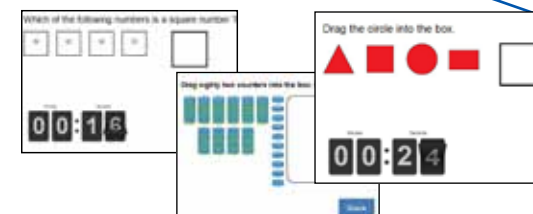

results and specific incorrect answers, enabling you to amend lesson plans for the next day in light of feedback.

### Boost Confidence

Every time a student gets 10 out of 10 in a test they get a merit. Plus, as a teacher, you can award a merit for good work. The merits lead to collectable printable certificates which keep students on track.

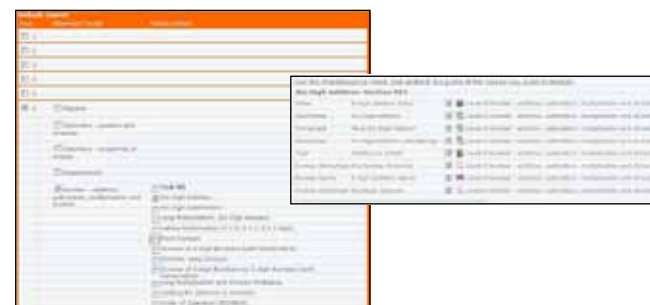

### Interactive Drag & Drop Activities

Drag & Drop games are perfect for kinaesthetic learners. Students love the timed activities and challenges, which have been designed to be used for touch screen devices, but are perfect for use on any computer.

### Build Bespoke Courses

You can create a course quickly, by using our pre made courses. Set work for one week at a time or a full year in advance. You can also make a complete bespoke course in minutes, simply by ticking the modules you need.

### 2014 Curriculum Approved

The 10ticks Online Learning System delivers the **2014 National Curriculum** and **2015 GCSE specifications**. Our maths team has created national curriculum resources for 5 countries combining 100s of years of experience.
