The Schools:

"The admin system is very comprehensive, levels, performance, tracking, communicating, making stuff available to parents. Truly comprehensive, loads to choose from. Rich desktop around the core material."
James Beckworth, Royal Borough of Windsor & Maiden Head LEA System.

"I think the 10ticks School learning System is an excellent website. The pupils really enjoy the games and need little encouragement to go on them. The upload facility for classes is also very good and saves a lot of time." Kevin McIlwee, De La Salle College, Jersey.

"I have had a good look through today and it is clear that the quality is very high." Chris Harcourt, Great Cornard Middle School, Great Cornard.

"The 10 ticks system was invaluable especially as a revision and additional tuition aid."

Laura Farrimond, Teacher, Bolton.

"It is truly an invaluable resource and we are very happy with it."

A Smith, One Tree Hill College, NZ.

About the Worksheets:

"These excellent worksheets provide comprehensive and imaginative coverage of National Curriculum topics. They have rapidly become a major resource for classwork, homework and cover lessons; they have certainly made our lives easier! Pupils enjoy the lively and attractive presentation; the carefully graded and extensive exercises can be used with all abilities."

Lynda Barlow, St Joseph's RC School, Horwich.

"An extraordinary resource. Quite the richest and most comprehensive set of worksheets I have ever seen. Varied and interesting in presentation."

Pete Davies, Dormston School, Dudley.

1000
Brand NEW
Worksheets!

7 ways to motivate students and improve results!

1. Improve class results by engaging students through a bright, interactive interface. Simple to use, no special software needed. Use during class or for homework. Accessible 24/7.

2. A done-for-you collection - Reduce preparation time with over 4000 worksheets. With 1000 brand new worksheets not available to buy anywhere else.

3. Your students will enjoy learning from the system. With quick and fun games centred on current maths topics.

4. Imagine a world with no more marking – set a revision course for homework and you will not have to mark homework ever again. Increases individualised learning – the system picks up on areas for improvement and offers extra revision tailored to that individual.

New Additions

NEW Revision courses – Perfect for those already using our maths worksheets in class. Set a tutorial guide and an end of topic test directly related to the maths worksheets, automatically marked by our system.

NEW Worksheets – The system includes 1000 worksheets which are not available to buy anywhere else.

5. Simple introductions – each topic starts off with an audio-visual guide with can be paused and replayed allowing students to work through at their own pace.

Unleash Student's Potential!

6. Dispels low level disruption – parent's link in to the system to check their son/daughter's results – allowing you to pre-set and send quick messages direct to parents.

7. Positive reinforcement - Reward success with merits, leading to printable certificates. Improve exam results – unlike other products our system mixes games with in-depth traditional learning – meaning students results actually improve.

NEW Revision section – Giving students access to 100s of guides and tests and 1000s of worksheets at any time. Perfect for revision as exams approach.

NEW Resource sharing – You can now upload your own Power point guides, videos, create your own tests and upload your own worksheets and share with teachers in your school or around the world.

Use the extra topics available, covering iGCSE and some lower A level work, to push on your Gifted and Talented.

Use the system to set homework a year in advance, perfect for staff or student illness and disaster anticipation measures.
