

Independent research shows that using 10ticks could lead to **two jumps** in examination grade.

An independent researcher conducted a survey comparing 10ticks to leading educational research by Professor John Hatte and Geoff Petty.

- 10ticks is one of the few systems to incorporate printable worksheets, leading to quicker increases in results for kinaesthetic learners.
- The 10ticks System uses badges recommended by Hattie and Petty, in the form of merits and certificates.
- The 10ticks System allows teachers to show worksheet answers so students can self mark. This has a huge impact on attainment increase.
- The 10ticks System gives immediate feedback highlighting wrongly answered questions each day, allowing students to rectify mistakes.
- The 10ticks System finds key areas for improvement for each child. A vital component to quick leaps in learning.

My son Ram has been using 10ticks. He has recently received his Maths GCSE result. He got an A and he is only 10 years old. 10ticks has helped him achieve this. RM*

Compatibility

The School Learning System is internet browser based so can be accessed 24/7, and is fully compatible with Windows, Mac, iPads, Androids and other tablets. Some resources may require additional software which should already be installed on a device.

The Maths National Curriculum Online School Learning System

- An instant powerful mathematics VLE
- National Curriculum compliant
- Regular content updates
- Years R - 11
- Deliver homework online

Motivate your pupils
and improve results!

About 10ticks

10ticks have been producing high quality maths resources for over 18 years and this wealth of experience has allowed us to create an interactive digital resource that helps to improve results and increase engagement.

The 10ticks School Learning System is an interactive online teaching and homework facility. It enables teachers to deliver the maths curriculum in a personalised and engaging environment and allows schools to benefit from an unrivalled bank of both online and offline resources.

You are the perfect example of how things should be done. Thank you again. Keep up the good work with your outstanding resource.

JD

Every Maths Resource You Will Ever Need

The 10ticks School Learning System has been fully mapped to the maths National Curriculum for England and includes targeted and engaging resources that cover every topic from Reception to Year 11, including the new GCSE syllabus.

The 10ticks School Learning System includes most of our award winning maths worksheets, 1000s of video guides, 1000s of tests and 100s of online activities and games.

Thanks for setting up this fantastic resource. It makes maths fun.

FS

Set Lessons in Seconds

Teachers can quickly and easily select ready-made 10ticks courses for pupils to undertake, or create and assign bespoke courses of learning for a whole class or individual pupils.

Teachers can also effortlessly set homework tasks for individuals or classes to complete within a deadline. The tests are marked instantly and detailed results of homework tasks are reported back to the teacher.

Teachers can also choose which 10ticks resources they would like to include within a course or homework and even upload their own, perfect for adopting a blended learning approach.

CJB Secondary School, Johannesburg

I think the 10ticks School Learning System is an excellent website. The pupils really enjoy the games and need little encouragement to go on them. The upload facility for classes is also very good and saves a lot of time.

KM

Boost Confidence

Not only do rewards help to build confidence but they also motivate and further pupil's engagement in maths. Every time a pupil gets 10 out of 10 in a test, they automatically receive a merit. The merits lead to collectable printable certificates which keep pupils on track. Teachers can also award a merit, furthering a pupil's confidence and motivation.

Track Whole Class & Individual Pupil Progress

We understand that every pupil has unique learning needs and specific areas of strengths and weaknesses. It can be extremely difficult for teachers to find the time to assess each individual child on every aspect of their maths learning to identify where specific weaknesses lie. With the 10ticks School Learning System the progress and results for a whole class and individual pupils are recorded and clearly reported, allowing you to easily identify individual and whole class gaps in knowledge.

Student Name	Average Test Scores	Course Completion	Last Login	Revision Test
Alison Hall	100%	100%	20-10-2014 10:00:00	100%
Alison Lee	100%	100%	20-10-2014 10:00:00	100%
Alison Jones	100%	100%	20-10-2014 10:00:00	100%
Alison Smith	100%	100%	20-10-2014 10:00:00	100%
Alison White	100%	100%	20-10-2014 10:00:00	100%

The admin system is very comprehensive, levels, performance, tracking, communicating, making stuff available to parents. Truly comprehensive, loads to choose from. Rich desktop around the core material. We are already big fans.

JB

Save Budgets, use Pupil Premium

The 10ticks School Learning System is ideal for closing the attainment gap as it provides a personalised learning environment for all pupils. A particular scheme of work or homework task can be allocated to individual pupils, exactly when they need it, helping to improve attainment.

The 10ticks School Learning System reports allow teachers to monitor the progress of any individual pupil throughout the year. This means effective online reporting and helps schools justify the allocation of funding for this resource.
